Investor Shares are modified CSA memberships- our response to requests for different share sizes and more flexibility.

You invest as much as you think you'll spend on produce this season, up front (now). All season, each time you shop from our market stall, we'll deduct your purchases from your account and keep track of your balance- no cash needed! Feel free to skip a week, take home nothing but tomatoes, or try everything on the table.

Your pre-season investment in Birch Point Farm is mutually beneficial. It will allow us to pay for seeds, supplies, and labor up front, and it will yield a return on your investment in the form of even more tasty, beautiful Birch Point produce!

If you run through your account, you can re-invest at any time. If you still have a balance at the end of the season, we'll roll it over into a winter account, to be used at our stall at the Winter Market indoors in Building 50 at The Commons in TC.

-----CUT AND RETURN BOTTOM HALF WITH PAYMENT-----
